Program exp 5

Aim: Install express and create an application.

```
// npm install express
// npm install express --save
// npm install body-parser --save
// npm install cookie-parser --save
// npm install multer --save

var express = require('express');
var app = express();
app.get('/', function (req, res) {
res.send('Hello!!!');
})
var server = app.listen(8000, function () {
//var host = server.address().address
//var port = server.address().port
console.log("The code is running at http://%s:%s", server.address(), server.address())
})
```
